## MEMORANDA.

**Trade.**—The imports during June were valued at £3,015,117, which shows an increase of £262,452, as compared with the corresponding month of last year. For the six months there was an increase of £1,744,768, or nearly 11 per cent., as compared with last year. The direct overseas imports during June amounted to £1,494,842, as compared with £1,543,617 in 1909; the total for the six months was £10,229,248, an increase of £662,511 over the corresponding figures for 1909. There were increases in most of the principal articles—apparel and soft goods, agricultural implements, boots and shoes, iron and steel, tobacco, cigars, &c.

The overseas exports for June amounted to £1,739,692, being an increase of £560,517, or over 47 per cent., compared with the corresponding month of last year. For the six months there was an increase in the overseas exports of £3,382,826, or over 30 per cent., as compared with last year.

Principal increases during the six months were—					£
Wool ...	...	...	...	...	1,163,269
Wheat ...	...	...	...	...	1,013,461
Butter...	...	...	...	...	324,358
Meats ...	...	...	...	...	285,765
Minerals ...	...	...	...	...	326,547
Skins ...	...	...	...	...	208,868
Tallow...	...	...	...	...	184,732

Separating merchandise from gold, the exports of the former during the six months increased by £3,575,480, and the latter decreased by £192,654.

**Public Finances.**—The Public Accounts for June show that the net revenue for the month was £1,776,918, or £532,876 more than in June of last year. During the year ended 30th June the revenue was £14,540,055, being £914,984 or 6·7 per cent. more than the financial year 1908–9.

Principal increases during the year were—				£
From Railways and Tramways	...	...	...	464,660
„ Taxation	...	...	...	315,422
„ Water and Sewerage Rates	...	...	...	35,029

Principal decreases during the same period were—				£
Commonwealth Revenue	...	...	...	8,542
Lands ...	...	...	...	67,353

The expenditure during June was £984,944, a decrease of £31,323, as compared with June of last year. During the year the expenditure was £13,080,590, being £88,396 more than in 1908–9.

Principal increases during the year were—				£
Business Undertakings	...	...	...	440,628
Interest Repayments	...	...	...	34,736

Expenditure on Government Departments decreased by £329,211.

On the 30th June, 1910, the Consolidated Revenue Account was in credit to the amount of £989,707.

**Dairying Production.**—The dairying industry in 1909 again showed considerable expansion. The quantity of butter made was 62,734,570 lb., the largest on record, and over a million and a quarter pounds more than during last year. The result is principally due to excellent returns in the North Coast districts.

**Stock Returns.**—The preliminary stock returns show the number of sheep in the State at the end of 1909 as 46,187,678, an increase of 2,816,881 over the previous year's figures. The number of horses was 604,776, and of cattle 3,027,704, both the highest on record; the number of pigs, 237,849, showed an increase of 22,027 on the figures of the previous year.

**Autumn and Winter Lambing.**—From reports furnished by the Inspectors of Stock it is estimated that at the end of 1909 the number of ewes in the State was 21,410,000, and of these 12,860,620, or 60 per cent., were requisitioned for the earlier lambings. Ewes to the number of 9,912,930 were mated to lamb in the autumn, the result being that 8,186,330 lambs were dropped, representing 82 per cent. of the ewes, and it is estimated that the markings will reach 6,667,300, or 67 per cent. The winter lambings were not quite so satisfactory, as 2,947,690 ewes produced only 2,064,930 lambs, or 70 per cent., and the probable markings will not exceed 1,656,990, representing only 56 per cent. of the ewes.

**Manufacturing Industries.**—The returns relating to employment in manufacturing show that the number of hands increased by 3,083, the total number employed in 1909 being 92,181, of whom 69,143 were males and 23,038 females. Increases were general in most of the principal industries, the largest being in the clothing industry. There was also a general increase in the wages paid, the total for 1909 being £7,674,664, as against £7,218,556 in 1908. The average wages paid in 1909 were £83, as compared with £81 in 1908. Of the total wages paid in 1909, males received £6,817,339 and females £857,325, the average being for males £98 12s., and for females £37 4s.

**Mineral Production.**—The value of the minerals exported from New South Wales during the second quarter of 1910 amounted to £1,672,531, an increase of £851,296 on the figures of the previous quarter, and during the first six months to £2,493,766, which shows an increase of £203,472 as compared with the corresponding period of last year. The output of silver, copper, and tin shows satisfactory increases both in quantity and value, but the returns of coal, owing to the small output during the first quarter of the year, disclose a decrease for the six months of £244,570 in value.

The gold yield during June was 12,147 oz. crude, equal to 10,261 oz. fine, valued at £43,588. The value of gold produced during the six months was £360,638, and showed a decrease of £21,940, as compared with the corresponding period of 1909.

**Prices.**—The general index number for June was lower than in May, and also lower than for the corresponding month of last year. The index number for pastoral produce was 1,235, for metals 1,114, and for all articles 1,196. Prices during the month were generally below those ruling in May; the principal articles to show a decrease in value were wheat, flour, greasy wool, tallow, mutton, and copper, but there were increases in the prices of butter, beef, and hides.

**Meteorology.**—During the month of June monsoonal weather conditions prevailed, and four distinct rainstorms were experienced almost over the whole State. Very satisfactory amounts from each respective rainstorm occurred over the "Wheat Belt," and considerable benefit should result. Some splendid totals were also recorded in the Northern and Southern parts of the State, but on the Southern Tablelands, Metropolitan and South Coast Districts the falls were generally lower than the average.

**Land Selections.**—During June, 109 new settlers applied for 66,754 acres; and 67,947 acres, representing 68 blocks, were set apart for residential settlement. Since the beginning of the year the number of new settlers has been 968, and the area applied for 592,764 acres. The original area set apart for residential settlement since the 1st January has been 508,222 acres, representing 629 blocks.
